PROJECTS

AI Assistant

SOFTWARE ENGINEER

Pafos, Cyprus

Oct 2024 - Jan. 2025

- Developed a RAG agent that answers students' questions.
- https://github.com/Artem-Grigorash/csai_question_answering_bot

Internship at JetBrains

SOFTWARE ENGINEER

Pafos, Cyprus

July 2024 - Aug. 2024

- Developed a plugin for Rider IDE to enhance handling of TRX format files (test results). The plugin allows for easy analysis tests from TRX files. For example, it displays test results in an intuitive tree structure.
- <https://github.com/artem3605/TrxPlugin>

Building GPT course

DEVELOPER

Pafos, Cyprus

Nov. 2023 - Jan. 2024

- Together with the team, we are creating a course on creating GPT from scratch. A distinctive feature of the course is the auto-checking tasks.
- <https://github.com/nup-csai/building-gpt2>

SKILLS

Languages Python, C/C++, Kotlin

Machine learning LLMs, Pytorch, NLP, Numpy, Pandas

Other Docker, Git, Linux, Terminal
