EDUCATION

Neapolis University Pafos *Oct. 2023 - June 2027*

B.S. IN COMPUTER SCIENCE AND ARTIFICIAL INTELLIGENCE

AWARDS

Competetive programming
- Prize winner of the **ICPC 2023 Online Challenge**.
- Prize winner of the **Russian Olympiad in Informatics**.
- Prize winner of the **IATI**.
- Bronze medal of **IZHO**.

PROJECTS

Internship at JetBrains *Pafos, Cyprus*

SOFTWARE ENGINEER *July 2024 - Aug. 2024*
- Developed a plugin for Rider IDE to enhance handling of TRX format files (test results). The plugin allows for easy analysis tests from TRX files. For example, it displays test results in an intuitive tree structure.
- https://github.com/artem3605/TrxPlugin

Building GPT course *Pafos, Cyprus*

DEVELOPER *Nov. 2023 - Jan. 2024*
- Together with the team, we are creating a course on creating GPT from scratch. A distinctive feature of the course is the auto-checking tasks.
- https://github.com/nup-csai/building-gpt2

Image editor *Pafos, Cyprus*

DEVELOPER *Dec. 2023*
- A utility written in C for basic image changes.
- https://github.com/artem3605/image-editor

Disneyfication photos *Sochi, Russia*

ML DEVELOPER *Dec. 2021*
- My team and I made a telegram bot, which as a result could make photos more cartoon-like.
- https://github.com/birshert/CGI-tg-bot
